Re: Pryor vs. Municipal Court

Dear Tom:

Thank you for your kind assistance in answering my questions regarding the Pryor case. I was pleased to hear that the charges against Mr. Pryor were dismissed. In fact, I would like to obtain a copy of the transcript of the proceedings wherein the case was dismissed and cite that dismissal in my own motion. Could you just briefly answer the following questions about the dismissal?:

- 1) The name of the court and department number in which Judge Gilbert was sitting when he dismissed the charges;
- 2) The exact date on which charges were dismissed;
- 3) The Municipal Court case number (is it still L.A. 30901 as cited in the Supreme Court decision?)
- 4) Does the sealing of the "court records" mean that no transcript of the proceedings on the motion to dismiss could be made available for use as an exhibit in my motion?

Again, thank you for your help in this matter. I will certainly keep you advised of developments in northern California relating to the issues discussed in our correspondence.

Yours truly,

EARL RICK STOKES  
Attorney-at-Law
